## PROFILE

Computer Science undergraduate and AI/ML enthusiast (PW Institute of Innovation | Batch 2025) with hands-on experience in AI/ML, cybersecurity, and data visualization. Demonstrated ability to lead hackathon teams, deliver impactful presentations, and apply technical skills to practical challenges. Seeking internship opportunities to gain hands-on experience in projects involving Python, Power BI, and software engineering.

## EDUCATION

**PW Institute of Innovation (PW IOI)**  
B.Tech in Computer Science & Engineering

Pune, India  
2025 – Present

## TECHNICAL SKILLS

- **Languages:** Python, C/C++ (Beginner-Intermediate), SQL (Basic)
- **Data & Visualization:** Power BI, Data Visualization
- **Concepts:** AI/ML Fundamentals, Cybersecurity Basics, Prompt Engineering
- **Tools & Design:** Canva, Google Slides, Documentation, Flowcharts

## PROJECTS & HACKATHONS

**Smart India Hackathon (SIH) 2025** 2025

- Analyzed 50+ problem statements across multiple sectors to identify high-impact opportunities.
- Designed pitch decks and demo scripts for shortlisted projects (e.g., Smart Jal Suraksha).
- **Tech Stack/Tools:** Python, Power BI, Canva, Google Slides.

**Event Design & Presentations** Ongoing

- Designed 10+ event banners and presentations using AI-powered design tools, increasing engagement by 40%.
- Combined technical content with creative visuals for community and academic events.

## CERTIFICATIONS & WORKSHOPS

- **AI Prompt Engineering Masterclass** – Reliance Digital 2025
- **Cyber Security Job Simulation** – Deloitte by Forage 2025
- **Power BI Workshop** – Office Master 2025

## KEY STRENGTHS

- Quick learner with a strong problem-solving mindset.
- Ability to blend technical knowledge with creativity.
- Collaborative and community-driven approach.
- Enthusiastic about hackathons and real-world applications.
